The following examples are of previous applicants budgets who received a high score in the "Quality of Budget" portion of the jury score process.

- Specify which items of your budget that you are requesting the funding for by ***highlighting*** this information; you may highlight more than your grant's amount allots as we understand that many projects exceed SPG grant's amounts.
- Include a breakdown of each item in your budget; for example, if your project requires fabric, include the type, how many meters, where you will be purchasing from: 5m of cotton spandex @ $5.60/m = $28.00 + 1.40 GST + 2.79 HST = a total of 32.19.
- Where applicable, include a quote for printing costs, venue rentals, etc.
- Include all materials for the project even if they exceed the amount allotted to the grant you are applying for.
- Include other funding sources: other grants you are applying for, money you have secured from these grants, funding from your own pocket, rental/borrowing of items from the school, outside sources, friends; this gives the jury a better understanding of your project and its feasibility.
